

Spring/Summer 2009

Dear Stillwater County Resident,

Thank you for your interest in controlling weeds in our County. The Weed District Board and I invite you to review the following information as well as joining us in our effort to fight the noxious weed invasion in Stillwater County.

I have put together some information about the District that should assist you in getting started in combating weeds on your property. I would encourage you to contact me should you have a question about the District or any weed related issues. The District office is located at the county Road and Bridge Department one mile west of Columbus, hours of operation are 7.00am-5.30pm Monday- Thursday.

The weed district consist of a five member board of directors from different areas around the county, Noel Keogh Nye, 328-6285; Bob Kirch Nye, 328-6980; Chuck Egan Columbus, 322-5823; Allen Nordahl Molt, 669-3190; Harold Riensche Reed Point, 326-2363; and myself, Stillwater County Weed District Coordinator Jim Visser 322-1106 office, 321-3355 cell, or E-mail jvisser@montana.net. I urge you to contact any of the board members or myself concerning weed issues in our county.

In order to assist you as you fight the war on weeds, the District has several sprayers that we loan out to county residents. The sprayers range in size from a 3 gallon backpack sprayer, 15 gallon 4 wheeler sprayer, or 110 gallon slide in pickup sprayer. There is no charge for use of these units if they are returned within 5 days, rinsed, and in good working condition. A \$20.00 per day fee will be charged if the units are not returned within the 5 days or if special arrangements have not been made prior to use with the weed district. Understandably we ask that you return them as soon possible in order for them to be available for the next weed fighter.

.

Remember, the weed district is here to assist you, please don't hesitate to e-mail me or give me a call.

Sincerely,

Jim Visser
Stillwater County Weed District Coordinator
